

<b>F R O M</b>	Name & Title	Name: _____  Signature: _____	<b><i>MEMO</i></b>
	School name / address		
	Date		
	Subject	The Children's Oral Health Institute's Lessons In A Lunch Box: Healthy Teeth Essentials & Facts About Snacks™ program	

To: Teachers for Grades 2 and or 3, Faculty and Staff

In partnership with our Elementary School, The Children's Oral Health Institute will offer the *Lessons in a Lunch Box: Healthy Teeth Essentials & Facts About Snacks™* program for our students. This memo is developed to give The Children's Oral Health Institute permission to present the program via members of organized dentistry. We understand that the program includes educational videos, flossing and brushing demonstrations and a question and answering period with the children. By way of this memo permission is granted to The Children's Oral Health Institute for all students in grades 2 and 3 to receive a lunch box which includes a pediatric toothbrush, a .85 ounce (24 grams) tube of toothpaste, a sample of dental floss (12 yards/10.9M) are located inside of a plastic carrot case with a rinse cup that doubles as the screw-on top and a plastic mirror constructed of Mylar® film.

Thank you for your willingness to incorporate oral health education into your classroom instruction. Please visit The Children's Oral Health Institute website at [www.mycphi.org](http://www.mycphi.org) to learn more about this program and to identify other oral health education materials and resources to include in your lesson guide for students.
